Board of Directors 2020-2022

We have had many changes since 2018 till now. I can not be more proud of how the Board of Directors saw the vision and supported so many of these changes! I want us to continue to move forward to make our Association Great for all its members. I want to continue supporting the Executive team and the Board of Directors at the table to continue the work for the next 2 years.

I have a vision with many goals that I would be more than happy to share with any of you, just call or email me.
