
SARAH OSWALD

Hello, fellow Tigar Realtors. I am a proud member of Tigar and am running to be your board of director for the year 2020-2021.

I have been involved in several of Tigar committees such as education, grievance, professional standards, housing affordability, and local government relations. I have seen first-hand the importance of being involved in these committees. As your CAR state director, I saw the urgency and need to get involved to protect homeownership and property rights.

It is important that we all continue to elevate Tigar to be the pillar of the Inland Empire. During these times of uncertainty and changes, we must stand together to promote and protect our livelihood and profession as Realtor. I have heard so many of your burdens and outcries. As your director, be assured that my goal is to work for your voice to be heard.

With your vote, we can work together for a better tomorrow, grow as an association and protect our profession from online disruptors who are trying to replace our career. I would be honored to represent Tigar as your board of director and to fight for our board and our profession.
