In 2006 I started my profession in Real Estate at the height of the market; plummeting down to the historic fall of the market. I learned persistence and determination to succeed.

3 years into my real estate career, I saw a poster promoting the Realtor Action Fund. It featured a Realtor in a flashy suit, riding in a red-wagon that was being pulled by 5 other Realtors. I realized that I was that Realtor taking a "free ride" in the wagon, enjoying the benefits of those who were improving and bettering the careers of Realtors. I made a decision to regularly contribute to the Realtor Action Fund and to participate where I could.

My goal as one of your Directors would be to serve you and to protect the rights of homeownership. I would love to also take you from the position of riding in the red wagon to pioneering ahead with other motivated and driven Realtors. Life is better when we do this together!

I'm Alice Bechtel, and I am asking for your VOTE for Director.
